e - BUSINESS

Flexx *e-Business* masterfully combines e-Commerce, Customer Care and Flexx into a seamless "network anywhere" solution that puts you in control of every aspect of your business.

The key to this control is the ability to centrally manage all business requirements with one system. Whatever your demands—electronic store front, customer order tracking, electronic time-slip entry, or utilization of Flexx—our powerful *e-Business* module helps you to operate your business flexibly and efficiently.

Designed with sophisticated technology and security features, Flexx *e-Business* is fully customizable and scalable, and is integrated with all Flexx modules. It enables employees, customers and suppliers to access critical business information, and empowers you to create a more controlled, more lucrative business environment.
